

Nº 44823

1. The source of the proposed appropriation is Miry Canyon Well, an underground source
Name of stream, lake, spring, underground or other source
2. The amount of water applied for is .02 second-feet
One second-foot equals 448.83 gals. per min.
- (a) If stored in reservoir give number of acre-feet 110 cattle
3. The water to be used for stockwater, other use
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.
4. If use is for:
- (a) Irrigation, state number of acres to be irrigated: _____
- (b) Stockwater, state number and kinds of animals to be watered: 110 cattle
- (c) Other use (describe fully under "No. 12. Remarks") 17 wild horses
- (d) Power:
- (1) Horsepower developed _____
- (2) Point of return of water to stream _____
5. The water is to be diverted from its source at the following point: SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 25, T. 22 N.,
Describe as being within a 40-acre subdivision of public
R. 25 E., M.D.B.&M. At a point from which the SE corner of Section 30, T. 22 N.,
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.
R. 26 E., bears S. 80°24'19" E. 7,610.06 feet.
6. Place of use W $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 25, T. 22 N., R. 25 E., M.D.B.&M.
Describe by legal subdivision. If on unsurveyed land, it should be so stated.
7. Use will begin about January 1 and end about December 31, of each year.
Month and Day Month and Day
8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (Existing) Well, pump, and trough
State manner in which water is to be diverted, i.e. diversion structure, ditches and
flumes, drilled well with pump and motor, etc.
9. Estimated cost of works \$4,900.00

10. Estimated time required to construct works..... See attachment
If well completed, describe works.
11. Estimated time required to complete the application of water to beneficial use... three years
12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

APPROVAL..... OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of livestock served from the waters of this source. It is further understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. If well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times but does not take responsibility for the use of the Federal range.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal, and local agencies.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.004 cubic feet per second or sufficient water to water 110 head of cattle and 17 head of horses.

Work must be prosecuted with reasonable diligence and be completed on or before November 21, 1984

Proof of completion of work shall be filed before December 21, 1984

Application of water to beneficial use shall be made on or before November 21, 1986

Proof of the application of water to beneficial use shall be filed on or before December 21, 1986

Map in support of proof of beneficial use shall be filed on or before

Completion of work filed DEC 14 1984 IN TESTIMONY WHEREOF, I, PETER G. MORROS,

Proof of beneficial use filed OCT 20 1987 State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 21st day of NOVEMBER

DESCRIPTION OF
EXISTING IMPROVEMENTS

NAME: Miry Canyon Well

LOCATION: S.W. $\frac{1}{4}$, S.E. $\frac{1}{4}$, of Section 25 T.22N., R.25E., M.D.B.&M.

The following is a general description of the existing well and improvements found either by the undersigned or by personnel supervised by the undersigned. Where information regarding well depth and/or well casing depth are given, the source is from BLM record data.

GENERAL DESCRIPTION(1981): The well casing is 6" diameter and 590 feet deep. The onsite equipment consists of one pump with gasoline engine, and one 30' diameter x 2' deep trough.
